

RESIDENTIAL OPTIONS		STANDARD AVIN	
Item	Size	Pricing ex Vat	Summary info on Item
Tinted 304	920x630x600/120kg	29 253,90	Plain Brushed - Stainless Appearance or any Flat tint – Solid colours without variation or shimmer
Tinted 316		34 683,56	
Elite 304	920x630x600/120kg	31 253,90	Creating depth, shimmer, and a sense of luxury
Elite 316		36 683,56	
Trolley 304	720mm (W) x 1.5m (L) - with 500mm removable side table x 1m (H) 36 kilos (40x40 Brushed stainless steel tubing)	11 765,00	1 x Kalahari Blackwood side table included+ 2 x shelves - powdercoated with heavy duty galvanized swivel brake castor wheels
Trolley 316		14 678,00	
Chimney part 1	1.5 mm wall thickness grade 304 stainless steel inner tube, insulated, and cladded with 0.7mm thick grade 430BA stainless steel - with heat control damper - 180 O/D	2 406,78	The first meter of the chimney—the section directly connected to the AVIN—is made from a thicker material and is a heavier pipe. Thus, more expensive. This segment is intentionally designed this way, as it absorbs the most heat and carries the greatest thermal load. It's the core of the chimney's performance and safety
Chimney remaining	0.5 thick/Grade 304SS seamless inner/insulated and cladded with 304 SS - 180 O/D	2 170,79	The rest of the chimney is lighter and thinner, and this is intentional. These parts primarily serve heat flow, smoke extraction, and ventilation, and do not need to handle the same heat intensity. By maintaining this balance, we ensure optimal functionality without unnecessary weight or cost.
Extra components required for chimney installation	Cowl/Bends/Roof Seals/cover plates/brackets	Varies on design	Stainless/ Fully insulated/No single skins.

  

ACCESSORIES		Pricing ex vat
Glass Door	304 grade - R2 593,50/ 316 grade - R2 950,25
